

ANNISOKAY, Human

We crowd the earth
With gas and treason

A sacred gift

We shed with reason

Until our hopes blow up

We will never care

We will never care

Here's to being human

Gods of temptation

Feast till the downfall

Grow into the ending

Like tombstones in the sun

We pollute our souls

With lies against the bleeding

Progress is all we know

Cause in this race there is no ceiling

So you better run as fast as you can

Cause the time keeps ticking

No matter where you at

Smother the facts

When our lives blow up

We ain't coming back

Here's to being human

Gods of temptation

Feast till the downfall

Grow into the ending

Like tombstones in the sun

Under the banner of salvation

We feast the blood of limping nations

While we strive for more

Will we face the truth

Of our own demise

Will we realize

That we only aim at power and control

While we're digging our own fucking hole

we're just digging our own fucking hole

Some say I told you so

Some question all we do

But In the end we all

Don't want to come up short
