

Anointed, It's a Matter of Love

I hear you're faced with troubled times
Struggling with life and a past not left behind
You're not alone 'cause you are a friend of mine, yes you are
We need someone who is right by our side
To laugh and joke and to cry with, when we cry
A safer place to go when your heart aches inside
I just want to let you know that I'm here for you
Anytime you're hurting, you know just what to do
I'll be there no matter what you're going through
It's a matter of me, it's a matter of you
It's a matter of us helping each other too
All the matters of life, it's a matter of love
Love is all about faith, faith is all about trust
Trust is all about God taking care of us
As a matter of fact, it's a matter of love
There is a bond between you and me
No one can break this kind of loyalty
Working together is how God meant it to be
So count on me when you feel the need
You have my word, I'll stand by you faithfully
You can believe it when I say I'll never leave
I just want to let you know that I'm here for you
Anytime you're hurting, you know just what to do
I'll be there no matter what you're going through
It's a matter of me, it's a matter of you
It's a matter of us helping each other too
All the matters of life, it's a matter of love
Love is all about faith, faith is all about trust
Trust is all about God taking care of us
As a matter of fact, it's a matter of love
You can count on me
Whenever you need
It's a matter of me, it's a matter of you
It's a matter of us helping each other, too
All the matters of life, it's a matter of love
Love is all about faith, faith is all about trust
Trust is all about God taking care of us
As a matter of fact, it's a matter of love
It's a matter, it's a matter
It's a matter
It's a matter, it's a matter
It's a matter, it's a matter
It's a matter
It's a matter, It's a matter of love
