

Anouk, Might As Well

I might as well be cheating on you I do
I might as well cheating on you

I always knew that you would be
Cheating on me finally
I never knew it be this soon
I didn't see it comin'

Yesterday you let me down
The only friend I thought I found
Sleepless nights heart in two
Baby who is kissing you

If this would have happend to me
ten years ago
I'd make sure that you'd be lying
six feet underground
But little girls we grow up
knowing love will find a way
So now we have an understanding
I can't see why I

Might as well
Be cheating on you
I might as well
Do all the things you do
I might as well
Have a little fun
Baby you inspire
It's te way we carry on

Heavy steal is all you see
That is what is left of me
No remorse no dignity
Can we get any higher
To every other happy fool
Disloyalty will come for you
Lights go out on your own
So much for pretending

Now if this would have happend to me
ten years ago
I'd make sure that you'd be lying
six feet underground
But little girls we grow up
knowing love will find a way
So now we have an understanding
I can't see why I

Might as well
Be cheating on you
I might as well
Do all the things you do
I might as well
Have a little fun
Baby you inspire
It's te way we carry on

Have you ever been in love before
and does it matter
'Cause nothing ever seems to be
the way it should be

Tell me why

Don't you love me like the
way you used to do
It might be worthwhile
To take a step back and ask
yourself how it's gonna last
when it's all a lie
Now here me out
I swear to god that this
is something I will not forget

Might as well
Be cheating on you
I might as well
Do all the things you do
I might as well
Have a little fun
Baby you inspire
It's te way we carry on

I might as well be cheating on you I do
I might as well be cheating on you I do
I might as well be cheating on you I do
I might as well be cheating on you I do
