

# Ansel Elgort, Home Alone

Time told all  
I was stranded un my head  
From moments it was done but then I's lie in bed

And miss your smile  
And miss your laugh  
And miss the memoirs form our past  
/2x

I don't wanna go home  
Alone  
/2x

At the end of the nioght  
When I turn off the light  
And the bullshit fades away  
I don't wanna go home  
Alone

So open up that door  
And tlet;s find a solution  
COZ, baby, you're the World  
I won't be your pollution  
And if you cry I will dry your eyes  
I stand beside you  
I will give you time  
We both know  
I;ve got room to grow  
Just hold my hand  
Baby, I never let it goes!

I don't wanna go home  
Alone  
/2x

At the end of the nioght  
When I turn off the light  
And the bullshit fades away  
I don't wanna go home  
Alone
