

ANTH, Medicine (ft. Conor Maynard)

call off the flashing blue lights
I'm here for you
if you let me in
be your medicine

o know the memories beat you black and blue
I'll fix everything
I know I can cure you
be your medicine

(zwr. 1)

call off the flashing blue lights
I'm here for you
if you let me in
be your medicine

o know the memories beat you black and blue
I'll fix everything
I know I can cure you
be your medicine

(zwr 2)

call off the flashing blue lights
I'm here for you
if you let me in
be your medicine

o know the memories beat you black and blue
I'll fix everything
I know I can cure you
be your medicine

whoah
I know I can cure you
be your medicine

so let me take away the pain
don't worry, I'll be ok
promise that I am gonna stay
and take us back yesterday
so let me take away the pain
don't worry, I'll be ok
promise that I am gonna stay

whoah
I know I can cure you
be your medicine
