

Anthony Callea, Lost In Summer

Another Monday morning
The clouds are warning
Every day feels the same
You check the forecast
How long can this last
We're gonna drown in this rain

Gotta get away, get in your car or just catch a plane
Gotta feel the ocean spray, let's just sail away
Gotta feel the sun, gotta feel the sun

(Chorus)
Where we can dance to the music 24/7
All the boys and the girls look so fine
Kick back, forget all your troubles
Get lost in the summertime
Get lost in the summertime
Lost in the summertime

You feel your spirit sinking
And all that you're thinking
When your day is done
You need some inspiration
So change the station
Find a place you can run
Gotta get away, get in your car or just catch a plane

(Chorus)

Gotta get away, get in your car or just catch a plane
Gotta feel the ocean spray, let's just sail away
Gotta feel the sun, gotta feel the sun
