Float

by Anthony Hamilton

Verse I

Could it be your nice silky tone
Ohh..that makes me want you girl
Distant nights spent love on the phone
As I touch myself / how I want you more
The mood evokes /incense smoke and I'm burning up in temperature / ready to explode
Come take a toke / let's float / baby on higher ground

Chorus

Baby come / float with me
Let me take / you to a place on higher honey
Baby come / float with me
Face to face / build a body of fire honey
(Repeat)

Verse II

Could it be your sweet sweet moan
While I'm inside your world your world
A sudden glance that you give from across the room
Come and take control yeah
Open up my favorite bottle /let the wind blow
Create an atmosphere / stay right here
Listen to the rain / your handprints on the window pane
And its burning me up with the desire ohh..

Bridge

When I think about it / I don't want to be without it
Baby grab a hold / feel me in your soul
Forever more climb on
You beong to me
(Repeat)

Chorus

Baby come / float with me
Let me take / you to a place on higher honey
Baby come / float with me
Face to face / build a body of fire honey
(Repeat)

Call me/ write me/ love me/ come home

(Repeat)

Ad lib out.....
