

Anthony Hamilton, Georgie Parker

[Verse 1]

Mmmm, mmmmm, mmmmm

Mmmmm, mmmmm, yeah

OOooohh

Their used to be a little old boy

Riding round their home from school yea

****Kinda frail didnt think much of himself, noo

He used to see the petty

His mothers drunken boyfriend

Hanging out by the corner store

Their was a very old lady

That used to call him baby

And in his mind this is what he heard

[Chorus]

Georgie Parker, get away

Georgie Parker, come with me

Georgie Parker, free your mind

Georgie Parker, let yourself be

Georgie Parker, come with me

Georgie Parker, oooh

Georgie Parker, George

[Verse 2]

Trying to be his only friend

He wasnt cool with the strangers then

He turned his head and walked away

As he turned around and started to cry

Stuck in the lions den

To scared to let help in

He had to make a sacrefice

He tried to cope with it

And couldnt find the strength

Can anybody tell me what Georgie did

[Chorus]

[bridge]

They'll be a better place for u and me

Free your mind

Get away, follow me

Follow me to a place

Free your mind lets go to, to a place

Where u can be free, oh Georgie

Free your mind, let yourself go the rest will follow
