

# Anthrax, Crush

Now you see me, now you don't  
Go before I am the goat  
You get away with murder  
Kill me when you're through  
Do I have to give up me  
To be loved by you  
You get away with murder  
What do I have to do  
Do I have to give up me  
To be loved by you

From the smallest taste I use  
From the smallest taste I lose  
Won't you crush on me

Pile your dead on top of me  
Tape my eyes so I can't see

You get away with murder  
Kill me when you're through  
Do I have to give up me  
To be loved by you  
You get away with murder  
What do I have to do  
Do I have to give up me  
To be loved by you

From the smallest taste I use  
From the smallest taste I lose  
Won't you crush on me

I've been waiting for today  
I can't touch you when you're far away  
Nothing makes me feel this way  
Except hate but that fades away

From the smallest taste I use  
From the smallest taste I lose

Won't you crush on me

I've been waiting for today  
I can't touch you when you're far away  
Nothing makes me feel this way  
Except hate but that fades away
