

# Anthrax, Love Her All I Can

[Originally by Kiss]

I remember the times I was lonely without her  
Now she's mine and I spend my times dreamin' about her

Love her all I can and try to understand  
The things that make her glad  
The things that make her sad  
I'm a lucky guy, I hardly ever cry  
And when the world looks bad  
She's never ever sad

She's so easy to please and it doesn't take money, no, no  
We can have a good time when the skies aren't sunny

Ah, I love her all I can and try to understand  
The things that make her glad  
The things that make her sad  
I'm a lucky guy, I hardly ever cry  
And when the world looks bad  
She's never ever sad  
Whoo

I remember the times I was lonely without her  
Now she's mine and I spend my time dreamin' about her

I love her all I can and try to understand  
The things that make her glad  
The things that make her sad  
I'm a lucky guy, I hardly ever cry  
And when the world looks bad  
She's never ever sad
