

# Antichrisis, The Farewell

I wanted to live on top of a mountain  
but it's cold and forsaken there without you now  
I wanted to dive into the ocean of love  
but I got shipwrecked on the shores of broken dreams  
For you I sang songs of the nightswan  
and each line I wrote was a beat of my heart  
Forever burning on love's funeral pyre:  
Stop beating now, my bleeding heart!  
For this knife did cut too deep  
so for the last time I'm trying not to breathe  
Once there was a fire in the lighthouse of my heart:  
I gave you so much more than just my love  
and you broke so much more than just a promise  
Our planet vanished so devastatingly  
amongst the mists of time  
There was no treasure to be found at Rainbow's End  
somewhere behind Andromeda  
I've been waiting till the end of December  
but no more will I ride  
for the winter solstice's child  
will pass away silently on a midsummer's night  
So may you come now, my Dead Romantic Angel  
serenade Kyrhnean Hymns to me  
Hold me in your arms  
cover me with elder flowers  
and take me down to my beloved sea  
I'm so tired, so tremendously tired  
Please wait for me under the midnight sun  
where I will sing and dance again  
and my laughter will be heard  
echoing down the hillside again...  
Oh, how I tried to believe, how I loved,  
How I tried to hold on to my dream;  
How I wanted to live - but now I'm going home  
to a place where love is more than just a four-letter word  
and as I kiss the memory of yours goodnight  
I'm beginning to see the light...  
Ich liebe Dich fr immer!
