Die For You (Eng. Version)

Loving you the way I do
and all this things that we've been through
make me sad
make me mad

Finally the fear of heart
There is only sorrow in my heart
Hard to say im ok

'Cause I would die for you
look into my eyes and see me true
really I could never lie to you
just to make you see
that no one else could ever love you like the way I do

x2

Now that you are here no more
the nights are longer then before
hard to say that I'm ok

'Cause I would die for you
look into my eyes and see me true
really I could never lie to you
just to make you see
that no one else could ever love you like the way I do

x2

'Cause I would die for you!
