

Antony And The Johnsons, Blind

As a child I knew
That the stars could only get brighter
And we would get closer
Get closer
As a child I knew
That the stars could only get brighter
That we could get closer
Leaving this darkness behind
Now that I'm older
The stars should lie upon my face
When I found myself alone
Find myself alone
Now that I'm older
The stars should lie upon my face
But when I find myself alone
I feel like I am blind
Feel it
Feel it
Feel it
Feel it
Like I am blind
I wish the stars could shine now
For they are closer, they are near
But they will not present my present
They will not present my present
I wish the light could shine now
For it is closer, it is near
But it will not present my present
And it makes my past and future painfully clear
To hear you now
To see you now
I can look outside myself
I must examine my breath
And look inside
To see you now
To hear you now
I can look outside myself
I must examine my breath
And look inside
Because I feel blind
Because I feel blind
I feel it
I feel it
I feel it
I feel it
Like I am blind
The movie will
And feel it
Oh I feel it
Oh feel it...
