

Anybody Killa, Mommy's Doin' Drugs

What do you want from me
Be the question
Don't you think I gave you enough
What about the time I took you out
And jus bought you all kinds of crazy stuff
This world aint nuthin different
I ask it everyday
What the fucc do I gotta do
So everyone can see it my way
If I could I would
Be a millionaire
And help other poor kids that share
And keep away from the ones that front
Always takin what you givin cuz they steadily want
So what more could you want from me
Would it make you happy
To watch me bleed
Or are you sticcin around
To just see
If a killa like me's
Able to achieve
Wassup
What do you want from me
Don't be actin like we bad when we want you to see
What do you want from me
Don't be actin like a fool when you think I'm around
What do you want from me
What you see is what you get, without a doubt
What do you want from me
What do you want from me
I'm just askin
Cuz you look like you need some help
And the only thing left that I got to give
Are these rhymes that I use myself when I'm angry
I just get so confused
Think to myself what do I got to lose
There's nothin more for me here to prove
So from here on out I'ma act a fool
What do you want from me
Might as well ask
Cuz I'm kinda in a giving mood
Got free advice for the ones that hate
This mutha fuccin nuts for u bitch
I'ma walk wit my head held high
Through these trails of tears cuz I have nothing to fear
Yall I'm detroits first native representin
87 it was written memorized ready for spittin dawg
Chorus
I'm so proud to die
And I'm proud to lvie
And I'ma scream it to the world until my lungs give in
If there's anything I got that you think you deserve
Then next time test my nerves
Or it's all bad
Crazy psycho not right in the dome
Leave me alone
So fed up and don't know what to do
So now it's time to ask from you
Help me
I guess you think I'm crazy
I do it for you, I do it for you
Even though wit u I'm crazy
You crazy too, you crazy too
I know you think I'm crazy

I do it for you I do it for you
Even though wit u I'm crazy
You crazy too, you crazy too
Chorus
