

Ape, Bender

All our fuckin tunes rushing through my veins
And ya know that were fuckin insane
Hello pretty baby welcome to the show
But I think there's one thing you should know
As ya already know
End of our show
Get out the fuckin door
We don't want you anymore
All your friends come out and say that we are great
I already know this your friends are fuckin lame
I don't fuckin care about any of you
But there's something I'll say to you
As you already know
End of our show
Get out the fuckin door
