

Aphasia, Release (This We End Tonight)

Bite your lip
And clench your fist
And tell me that I'm wrong
You go on and on. . .
I want it
And I need it
But I don't know how
One day you'll wake to find me gone
This we end tonight
The pain we end tonight
I've had enough
So take it back
I'm gone
We work it out
We scream and shout
So hard to get along
You go on and on. . .
I want it
And I need it
But I don't know how
One day you'll wake to find me gone
I'll put this mistake behind me
I know
I will not let this go
