

Aphex Twin, Knieval

There's a very fine line between being scared and concerned.
Since I don't like to say i'm scared i say i'm concerned.
But you know what? I really might be a little bit scared.
Yes?

Um, could you tell me a bit about the mechanisms on your bike?

Well, it's a skycycle actually, honey. It's not a bike. A skycycle.
There are only two skycycles in the whole world and i have them both.
I had three, but the third one is in the bottom of the Snake River Canyon.
