We've been together yesterday,
you tried to find the only way.
At the right time you'll be mine,
and our love will always shine,
tell me when will you be mine.

chorus:
dance will u dance with me all night,
your arms will hold me tight,
we'll dance until the the mornin' light.

I hope you come and find my heart,
I've always loved you from the start.
