Apollo Four Forty  
Apollo 440  
Millennium Fever  
Herr god, herr lucifer  
Out of the ashes i rise  
The end of my century's sundown  
Burnt into my eyes

Backward thinking didn't get me  
Where i am today  
I been dreamin' of freezing my mind  
In californi-i-a

Hey cyberchrist cardiac-hero  
From the ashes i ride  
We know the meaning of life  
It's in the scream  
Of my bottleneck-slide

Backward thinking didn't get me  
Where i am today  
Get a harley, get a hard on  
Get a ride out of the u.s. of a.

Staring at the sun  
Waiting for my time to come

Millennium fever  
Millennium fever

What are you doing after the orgy?
