

# Apollo Four Forty, Pain In Any Language

I'm gonna love you till you love me then no more, no more  
You're gonna need me like I need you right now, right now  
I'm gonna screw you for all you're worth and no more, no more  
You're gonna need me, it's the same in any language  
The pain in any language is the same in any language, language  
I'm gonna love you till you love me then no more, no more  
You're gonna need me like I need you right now, right now  
You're gonna need me, it's the same in any language  
The pain in any language is the same in any language  
I'm gonna love you till you love me then no more, no more, no more  
I'm gonna love you till you love me then no more, no more

It's the same in any language, the pain in any language  
Same in any language, same in any language  
I'm gonna love you till you love me then no more, no more  
I'm gonna love you till you love me then no more, no more  
I'm gonna love you till you love me then no more, no more  
You're gonna need me, yeah, you're gonna need me  
They won't love you like I love you  
They won't love you like I do  
They won't love you like I love you  
They won't love you like I do
