

ApologetiX, Come Out And Pray

And students, the thing to remember about church and state...
You gotta keep 'em separated!
Don't try to pray in the classroom.
You can't be spreading your faith.
They turn our classroom into an atheist vacuum
While they're separating church from the state.
They can't stand God, so they took Him out.
Started back in 62 and look at us now.
They warn that government and God just don't mix.
You're gonna have to stop, have to stop, have to stop, have to stop! Hey!
Hey man you talkin' 'bout your faith? Take him out!
You gotta keep 'em separated!
Hey! Hey man you mixin' church and state? Take him out!
You gotta keep 'em separated!
Hey! There's been a rise
In murder, rape, teenage pregnancies and suicides.
Hey! Come out and pray!
Now it's sex, drugs and violence,
The American way.
Crumble the morals and the government fails.
Once God's ousted, it's a matter of fate.
We're going down the same path as others before
Everyone from Sodom to the U.S.S.R.
They never ever see it 'til it's finally too late.
You gotta find your own hope, find your own hope, find your own faith!
Hey man, is this what's left for me? Where to now?
You gotta keep 'em motivated!
Hey! When they all grow up to be criminals
You gotta keep incarcerated!
Hey! Hope you don't mind
Murder, rape, teenage pregnancies and suicides!
Hey! Come out and pray!
One two three four
The moral is the same because it's happened before.
Go to Second Chronicles and turn to the Lord.
In 7, verse 14, He says
If My people pray
They're gonna finally know hope, finally know hope, finally know faith!
Hey man, there's nothing to believe
Where to now?
You gotta keep 'em educated!
Hey! And the kids grow up to be
Animals!
You gotta keep 'em all sedated!
Hey! Hope you don't mind
Murder, rape, teenage pregnancies and suicides!
Hey! Come out and Pray!
