

# ApologetiX, Story Of A Squirrel

This is the story of a squirrel  
Whom God Preserved when he drowned the whole world  
And while things looked so dark and Noah's Ark  
Was absolutely flooded - yet she's fine

How many days were they there?  
Afloat in the boat it was over one year  
And how come the world didn't prepare?  
Meteorologists said it would clear  
How could they stand that raining?  
Where was the hope in the souls of the crew?  
Life on the waves is severe  
When it's Gilligan's Island combined with a zoo  
But Noah was aware the world would get sprayed  
And the wind would never fall in quite the same way  
But two of every creatures would come out of things O.K.

This is the story of a Squirrel...

And while things looked so bad and Noah's raft  
Was absolutely flooded - yet she's fine

Have they discovered the place  
Where the boat came to rest when the rain was all drained?  
Why don't we climb up it's face? Walk up the mountain from Genesis 8?  
It's probably still there waiting there in the snow in the cold altitude  
How do we get there today?  
When you walk into Turkey and hiking is refused?  
They've closed up the Ararat Mountain these days  
There's terrorists there besides - it ain't safe  
And they're 17,000 feet high - I think we'll wait

This is the story of a Squirrel...

And While she took no baths and those giraffes  
Were absolutely stubborn - yet she's fine  
Well, you're told to prepare as well and get saved  
And the end of the world it might be on the way  
But you'd never think you'd run out of time today

This is the story of a Squirrel...

And when we look close at Jehovah's wrath I absolutely shudder  
This is the story of a Squirrel - I tried to sing it about the old girl  
But all this went so fast - I've noticed that  
I accidentally snubbed her - yet she's fine - Oh, yes, she's fine
