

Apoptygma Berzerk, Butterfly Defect

Watching from above
The deep blue seas
The yellow fields
And all the green
But in between
I see grey smoke
Cancer like black spots
Looks just like LA
But there is much more
There is much more to this
Than you can see
There is much more to this
I guarantee - just wait and see
The aeroplanes flying by
They carry paperclips
And young blond girls
There is much more
There is much more to this
Have a closer look - then you'll see
