

Apoptygma Berzerk, Love Never Dies (part 1)

Forever in your arms, you said, forever in my heart
My love for you will make us both climb higher
Driven by the power that is burning in our hearts
You know my faith in you will keep us together
Forever in your arms you said, forever in my heart
My love for you will make us both climb higher
I sense your presence in this room, I feel that you are near
You hold me close and whisper, "Love is forever"
Love is forever...
Love never dies...
