

# Appleseed Cast, Losing Touching Searching

There's no sign  
there's no chance we'll get there on time  
We couldn't find the place that night.  
We were lost and stuck together.  
We were lost with ourselves,  
and we were lost with each other.

Where's this place we need to be?  
Where's this place we need see?

There's no sign  
there's no chance we'll get there on time.  
If we could have found another place  
to see ourselves and crack the code  
we could have made it then you know,  
but there's no signs  
on that road.

Caught in this place we know  
with no signs of letting go  
you're heart is just another road  
another place that I can't go  
so we sit and contemplate  
the world's become a big mistake  
and here we are in the middle  
trying to work out this riddle.
