

Appleton, Long Long Road

Time has no delay
As we move to another day
While the world is turning over
Night and day are just a passing phase

And you know, yes you know
It's gonna go when you here your call
Just reach out, grab a hand
Cos there's nothing wrong with sharing what you feel inside

Cos it's a long long road when you're traveling alone
And you've got nowhere to go
Cos on this long long road all you have to do is call
Sit back, and we'll share the phone

Knotted up inside
Feeling tense, nowhere left to hide
And while the world is turning over
Night and day are just a passing phase

And you know, yes you know
It's gonna go when you here your call
Just reach out, grab a hand
Cos there's nothing wrong with sharing what you feel inside

Cos it's a long long road when you're traveling alone
And you've got nowhere to go
Cos on this long long road all you have to do is call
Sit back, and we'll share the phone

Share the phone
