I've come undone  
Nobody's won  
Being alone  
Has given me hope

The seeds that are sown  
Here on my own  
Are giving me hope  
Hope to burn again

If I remember you,  
Will you remember me?  
If I remember you,  
Will you remember me?

It killed me when you left  
I become so torn  
Hhat once felt like theft  
Is making me hope

Now that I can see  
Who I'm meant to be  
Now that I am one  
I can burn again

If I remember you,  
Will you remember me?  
If I remember you,  
Will you remember me?

And it's a silent voice  
All I can hear  
Ringin' in my ear  
And it's your silent choice  
Bring me new fears  
It's bringing me to tears

If I remember you,  
Will you remember me? (x4)
