

April Stevens, I Want A Lip

I want a lip
And then I want another lip
I want two lips
To kiss me all the time

I want an arm
then I want another arm
yeah, I want two arms
To hold me all the time

In other words I want a man
Yes, a man
A Man who's all in one,
We'll put our lips together, close together
And we'll have so much fun

I want two lips
To kiss me like you're kissing me
Honey, can't you see?
Yeah yeah, you're the one for me

In other words I want a man who calls my name
Every morning and every night
I'll hang his picture in my private hall of fame
And he's gonna treat me right

I want two lips
To kiss me like you're kissing me
Honey, can't you see?
Yeah yeah, you're the one for me
