

April Wine, Better Do It Well

(Gary Moffet/Myles Goodwyn)

Published by Goody Two Tunes, Inc. - BMI

She was a lady, sitting alone
Played out of line
She does a number, out on the floor
She is so fine
Get it up, get it up
Drinkin' my papaya
Good to see things my way baby
What'd you say, hey

Tramp of the neighborhood
Not bad looking and feels so good
I knew the lady had something to tell
If you're gonna love me better do it well

Come on babe, show me a sign
I wanna know
One says right, one says left
I don't know which way to go
Ooh, you got love, you got love
Turn on the lights
Won't you send it my way
Yeah, come on, we'll do it tonight

Tramp of the neighborhood
Not bad looking and feels so good
I knew the lady had something to tell
If you're gonna love me better do it well

Do you love her, I don't know
Well do you need her, I think so
Do you, do you have to act so blind
Girl you got my love and then you leave me behind

Tramp of the neighborhood
Not bad looking and feels so good
I knew the lady had something to tell
If you're gonna love me better do it well
If you're gonna love me better do it well
If you're gonna love me better do it well
Tramp of the neighborhood
Not bad looking and feels so good
I knew the lady had something to tell
If you're gonna love me better do it well
