Crash And Burn

(myles goodwyn)

Published by northern goody two tunes, ltd./capac - ascap

They call it the burnout factor, and only the good die young  
Somebody's gonna take their life, just tryin' to have some fun  
The paper's gonna say we're crazy, no matter what they say, yeah  
You know i'm gonna rock all night, gonna rock all night and day

Whenever they quote you man, you'll be misunderstood  
They're never gonna get it right, or tell it the way they should  
Maybe we move too fast to put it all in a song  
And if we keep pushin' ourselves we won't be around too long  
If you wanna try it

Crash and burn, crash and burn  
Crash and burn, crash and burn all night long

Some people like to take it easy and flow without a sound  
Others like to play for keeps and spread themselves around  
I don't wanna say it's right, but if that's where you wanna be  
Life's too short to miss out on what you wanna see  
If you wanna try it

Crash and burn, crash and burn  
Crash and burn, crash and burn all night long

Come on now, honey, don't tell me the way i ought to be  
You know i don't need nobody talkin' back to me  
Hey, i'm gonna live my life the way i think i should  
You know i wouldn't change a thing, even if i could  
I tell it like it is

Crash and burn, crash and burn  
Crash and burn, crash and burn  
Baby, crash and burn  
I said crash and burn  
I said crash and burn
