Needin' you, wonderin' what to do

Baby, i've been away

And even so, maybe i should go

Is there nothin' that you wanna say

Just keep it nice, baby what's your price

Cause it looks as though i have to pay

For something clean, only some machine

But she never lets it in her way, no

Gimme love, i need lovin'

Gimme love, gimme love

Gimme love, gimme love, oh yeah

Gimme love

I'm feelin' used, and baby i'm amused

Cause there's something that i shoulda done

Like take my time, or used another line

But i had to get on the run

Can't you see, i don't wanna disagree

There's a chance that we could lose the feel

Let's keep it light, to get us through the night

Do you say you wanna make a deal

Gimme love, gimme lovin'

I need love, yes i do

Gimme love, gimme love, oh yeah

Gimme love

Gimme love, gimme love

Gimme love, gimme love

Gimme love, gimme love

Gimme love, gimme love

I need love, gimme love

Gimme love, gimme love, some good lovin'

Gimme love, gimme love, i need love (oh yeah)

Gimme love

Gimme love, gimme love, oh yeah

Gimme love, gimme love, i need love

Gimme love, gimme love, oh yeah

Gimme love

Gimme love, gimme love

Gimme love, gimme love
