Needin' you, wonderin' what to do
Baby, i've been away
And even so, maybe i should go
Is there nothin' that you wanna say
Just keep it nice, baby what's your price
Cause it looks as though i have to pay
For something clean, only some machine
But she never lets it in her way, no

Gimme love, i need lovin' Gimme love, gimme love Gimme love, gimme love, oh yeah Gimme love

I'm feelin' used, and baby i'm amused Cause there's something that i shoulda done Like take my time, or used another line But i had to get on the run Can't you see, i don't wanna disagree There's a chance that we could lose the feel Let's keep it light, to get us through the night Do you say you wanna make a deal

Gimme love, gimme lovin' I need love, yes i do Gimme love, gimme love, oh yeah Gimme love

Gimme love, gimme love Gimme love, gimme love Gimme love, gimme love Gimme love, gimme love I need love, gimme love

Gimme love, gimme love, some good lovin'
Gimme love, gimme love, i need love (oh yeah)
Gimme love
Gimme love, gimme love, oh yeah
Gimme love, gimme love, i need love
Gimme love, gimme love, oh yeah
Gimme love
Gimme love
Gimme love, gimme love
Gimme love, gimme love
