

April Wine, Like A Lover, Like A Song

April Wine
One For The Road
Like A Lover, Like A Song
(myles goodwyn)
Published by goody two tunes, inc. - bmi

I don't wanna talk about it anymore
When there's nothin' goin' on, and somethin' should be done
Cause we believed for nothin' it seems
And now it's ended broken-hearted
And as anyone can see, there was no way we'd agree

And we can get there if we try
And i wanna live if i have to die
And it'll come so sweet and softly, like a song
And really turn me on, like a lover like a song
Really turn me on, turn me on

It seems there's somethin' deep inside of you
And i can tell that you've been lonely
And you've had hard times too
Cause we believed for nothin', it seems
And now it's shattered all apart, like a broken heart
It's the end, it's a start

And we can get there if we try
And i wanna live if i have to die
And it'll come so sweet and softly, like a song
And really turn me on, like a lover like a song
Really turn me on, really turn me on

And there's somethin' inside that's been burnin'
And there's somethin' inside i've been learnin'
And i can't hide cause it's all over me
And deep inside of you, inside of you
Deep inside of you, inside of you

I don't wanna talk about it anymore
When there's nothin' goin' on
And somethin' should be done
Cause we believed for nothin', it seems
And now it's ended broken-hearted
And as anyone can see, there was no way we'd agree

And we can get there if we try
And i wanna live if i have to die
And here's a chance for you to see
What this pain's been doin' to me
And i wanna lose it everyone
And have a heartache on the run
And we can get there if we try
And i wanna live if i have to die
If i have to die, if i have to die
