I don't wanna talk about it anymore  
When there's nothin' goin' on, and somethin' should be done  
Cause we believed for nothin' it seems  
And now it's ended broken-hearted  
And as anyone can see, there was no way we'd agree

And we can get there if we try  
And i wanna live if i have to die  
And it'll come so sweet and softly, like a song  
And really turn me on, like a lover like a song  
Really turn me on, turn me on

It seems there's somethin' deep inside of you  
And i can tell that you've been lonely  
And you've had hard times too  
Cause we believed for nothin', it seems  
And now it's shattered all apart, like a broken heart  
It's the end, it's a start

And we can get there if we try  
And i wanna live if i have to die  
And it'll come so sweet and softly, like a song  
And really turn me on, like a lover like a song  
Really turn me on, really turn me on

And there's somethin' inside that's been burnin'  
And there's somethin' inside i've been learnin'  
And i can't hide cause it's all over me  
And deep inside of you, inside of you  
Deep inside of you, inside of you

I don't wanna talk about it anymore  
When there's nothin' goin' on  
And somethin' should be done  
Cause we believed for nothin', it seems  
And now it's ended broken-hearted  
And as anyone can see, there was no way we'd agree

And we can get there if we try  
And i wanna live if i have to die  
And here's a chance for you to see  
What this pain's been doin' to me  
And i wanna lose it everyone  
And have a heartache on the run  
And we can get there if we try  
And i wanna live if i have to die  
If i have to die, if i have to die
