

April Wine, Paradise

Paradise is what you are to me
And in my heart i know
This Love is meant to be
It's like a dream
Just to be with you
It's not a sacrafice cause no one else will do
"And I saidHey yea yeah
Hey yea yeah
I Love you more than truth
That only words can say
I say.....Hey yea yeah
Hey yea yeah
I Love you more than truth
I Love you for always
I say..."
When the memory of doubt
Washes out to sea
When the truth is only words
Sometimes you let it be
And that's all right
It happens once or twice
Isn't it nice
To Love someone and feel it's Paradise
To know that everything is right
Paradise is what you are to me
And in this crazy world
It's in you that I believe
Cause your the one
As anyone could see
This is true Love
And Love is all we need
(chours)
When the moment comes along
You never turn away
And I've been waiting all my life
I knew there come a day
And thats alright
It's happened once or twice
Isn't it nice
To Love someone and feel it's Paradise
To know that everything is right
