

# April Wine, Rock And Roll Woman

Get ready baby, when things start to move  
Stand out of the way, yeah, when she starts to groove  
She's livin' her life just as much as she can  
Just her and the music of a rock and roll band  
It's music that takes her away near most every day

No folkie, no, is gonna make her feel good  
That bluegrass music just don't do what it should  
That classical gas stuff, well it don't mean a thing  
'Cause she's only happy in a rock and roll scene

It's the music that takes her away  
And the feelin' that gets her near most every day

'Cause she's a rock and roll kinda woman  
Strictly one of a kind, she is  
With her neon suspenders, yeah  
Sure enough blows my mind

Rock steady baby, just a keep a-movin' on  
You gotta dance to the music 'til the music's all gone  
And it's special, that feelin', that comes over you  
And you're stompin' your feet and there ain't nothin' you can do

It's the music that takes her away  
She can't stand still when the boys start to play

'Cause she's a rock and roll kinda woman  
Strictly one of a kind, she is  
With the neon suspenders, yeah  
Sure enough blows my mind, ha!

It's the music that takes her away  
She can't stand still when the boys start to play

'Cause she's a rock and roll kinda woman, yeah  
Strictly one of a kind, she is  
With her neon suspenders, yeah  
Sure enough blows my mind

She's a rock and roll kinda woman, yeah  
Strictly one of a kind, she is  
With her neon suspenders, yeah  
Sure enough blows my mind

"Alright  
Come on, do it baby  
It feels good  
Don't care what nobody says  
Come on  
Come on"
