

# April Wine, Won't Go There No More

For the record I did everything I could  
And I know that a change would do me good  
It would

I better get away from the sound (away from the sound)  
I gotta run before it brings me down  
How 'bout you  
Ya how 'bout you

I don't go there no more (na na na na, na naaa)  
I don't go there no more (na na na na, na naaa)  
I don't go there

In a way it's like a wave crashing over me  
To get away is the only chance i see  
For me

I knew the space could tear us apart (tear us apart)  
I did my best and it broke my heart  
How 'bout you  
Ya how 'bout you

I won't go there no more (na na na na, na naaa)  
I won't go there no more (na na na na, na naaa)  
I won't go there

Our memories won't bring down  
There's no reason for this place  
Time to search for higher ground  
I said for higher ground

It's like an emotional wave slammin me  
It's all we know or so it seems to be

How bout you  
Baby how bout you

I hope to get away  
Look at what you made me do  
I won't go there

I won't go there no more (na na na na, na naaa)  
I won't go there no more (na na na na, na naaa)  
I won't go there no more (na na na na, na naaa)  
I won't go there no more (na na na na, na naaa)  
I won't go there  
I won't go there no more
