

# April Wine, Won't Walk That Road No More

Don't ask me where I'm goin'  
When I'm not sure where I've been  
I know I've lost alot  
Gave without a thought  
Believed in love again

And I don't have the answers  
And the question still remains  
Yes it hurts but even so  
That's the way life goes  
I could do without the pain

But I won't walk that road no more  
Headed for a distant shore  
I've been broken near in two  
Thats when love can do  
And I won't walk that road no more

So how did things get crazy  
Until the hurt was more than pain  
You just die a little bit  
So you can't get over it  
And life will never be the same

And I've grown a little wiser  
And should my heart be broke again  
I know I'll never quit  
That I'll get over it  
I'll never throw my soul away

And I won't walk that road no more  
Headed for that distant shore  
I've been broken near in half  
Scared myself to death  
I won't walk that road no more

You just die a little bit  
Feel you can't get over it  
And life will never be the same  
And I won't walk that road no more  
Headed for that distant shore  
I've been broken near in two  
Thats what love can do  
And I won't walk that road no more
