

# Aqua, Good Morning Sunshine

When the sun is up,  
on a clear blue sky,  
you will act like a lover.  
When the sky is grey,  
and the rain comes down,  
you will run for cover.

(Chorus 1)  
Feel the heat, come out of cold,  
and your arm is touching me.

(Chorus 2)  
Good morning sunshine,  
you are my only light,  
flying with me by my side,  
you keep me warm all day.  
Just stay with me.

(Chorus 3)  
Good morning sunshine,  
be with me all day,  
Just don't let the rain pass you by,  
when it's cloudy or windy  
and the snowflakes arrive,  
you somehow just make me,  
make me feel I'm alive.

When you leave my field  
then you light the stars  
Fading away in horizon  
there is a million streets  
leading off the night,  
waiting for sun to be risen

[Chorus 1]

[Chorus 2]

[Chorus 3]

Hold it right there,  
let me take a minute of your time,  
to explain how I feel through these rhymes.  
I do the best I can, and believe me if I could  
I'll build you a paradise with these two hands.  
the touch of your skin, makes my body go numb,  
I'm thinking to myself, has my dream come true,  
or is it 'cause you never give me a chance to tell you how I feel  
the moments we had were too precious to kill.

When it is cloudy or windy,  
please turn your face at me

[Chorus 2]

[Chorus 3]

Make me feel I'm alive...
