

Aqualung, Mr Universe

Lead me, I'll follow
Feed me, I'll swallow
If this ain't the real thing I don't want the real thing
Ignore me I'll sit here
I know where I fit here
You don't give a shit dear but really - I do.
Oh, take me with you
I'd crawl through coal to kiss you
Just gimme that sign and there I'll be.
I used to be so tired
Felt like I had expired
But woman you saved me, you came and enslaved me
And now I know exactly what to do
I know exactly where to go
This is just how I dreamt it might turn out to be
Come on - disrespect me
Cuz I know that you'll protect me
Just gimme that sign and there I'll be.
Baby, when I'm with you
nothing seems to matter
Stars spinning round me
How will they ever find me?
Everything seems so long ago...
There's no need to worry
Cuz we don't need anybody
Just gimme that sign and I'll be there I'll be.
Baby, when I'm with you
nothing seems to matter
