

# Arab Strap, I Would've Liked Me A Lot Last Night

I need them for my headaches, I need them for skin.  
We need it for a night out and sometimes for a night in.  
The room stinks of poppers, the bog's full of bile.  
At least I'm not shitting blood again.  
I always sat it's worst in the while.  
I hear we had a good time. I hear I was a riot.  
I would've like me a lot last night, I could've put me to shame last night.  
I feel out with a lover, I fell out with my friends.  
I'm still trying to work out where the weekend ends.  
No solids on Sunday, we can eat in the week.  
You said I was fucked - you got some fucking cheek  
I hear we had a good time. I hear I was a right laugh.  
I really loved you a lot last night. I could've hugged you to death last night.
