

Arapaho, Everything

Arapaho
1, 2 Mile From Eden
Everything
I think aloud tonight
Tomorrow's another day I know
Forgotten thoughts were always there
I had nowhere to go
And when I see you now
I think about the times we swam to shore
Your presence haunts me now
I lose myself more and more

I'll give you everything if you want me to
I'll give my life to you my girl
If you love me too
And that's for sure

Washed away through time
We threw promise to the wind
Love and music wasn't meant to ever end
And when I look back now
I laugh at the things we used to say
The show is over now
The stars will all fade away

I'll give you everything if you want me to
I'll give my life to you my girl
If you love me too
And that's for sure

Hypnotised, naive, so reckless
A movie every day
Just like a butterfly
Should I fold or head towards the sky
The shining face of now
Don't turn away
It might just disappear
Enjoy those eyes tonight
Don't wonder why she's here

I'll give you everything if you want me to
I'll give my life to you my girl
If you love me too
And that's for sure
