

Arapaho, Swirl The Wine

Arapaho
1, 2 Mile From Eden
Swirl The Wine
If you lost your faith
You can have mine
You see my friend
I've seen it working in time
It's a beautiful thing
That will always come through
So lets swirl the wine
And watch those dreams come true

Watching all those colours
Cutting through the glass
I'm feeling lonely
Burning in my heart

Do you feel like a shadow
That life steps over
Sweet, soft and deadly
The purest colour=20
that this life will offer
So don't trash yourself
Someday you'll discover

Watching all those colours
Cutting through the glass
I'm feeling lonely
Burning in my heart
