Arash, I am saying to you, that I love you

I only have you in this world

Araaaashhh, without you I am alone

Listen to me, I love you

(Arash)

All alone in this room I am without you

The rain is falling and you are not here

In this spring-night you are far from me

Come here my star, say yes to me

(Helena)

Yes, yes it is spring, I am coming to you again

Arash, without you I am cold

Oh my love

Yes, yes it is spring, tonight heart is worried

Arash you are mine, oh my love

(Arash)

Life with you is so wonderful

Every time you are here, it is always springtime

Lets join hands together sweetly, and be together.

Say my name, say yes to me

(Helena)

Yes, yes it is spring, I am coming to you again

Arash, without you I am cold

Oh my love

Yes, yes it is spring, tonight heart is worried

Arash you are mine, oh my love
