## Arcade Fire, Vampire/Forest Fire

You wanna be set apart?
Burn all of your art
Repair the wasteful part
I'm a vampire in a forest fire
Hey! we all gotta keep warm
Driving towards the storm

Your father was a pervert
Face down in the dirt
He taught you how to hurt
My father was a miner who lived in the suburbs
Let's live in the suburbs
If I let where I'm from burn I can never return!

My brother reads you and me his new poetry How embarrassing Your sister pours the gasoline I'll fix your meals while your burns heal!

Find a house you don't have to rebuild Stone by stone, brick by brick, nail by nail my father never meant to leave me this Let this love last I drive too fast Said I'd return if I'd ever cared But there's no interstate I find to take me there
