

# Arcade Fire, When Lenin Was Little

When Lenin was little  
All the birds in the forest were singin Man, this is it!  
But now that hes older  
All the sailors in the heaver are screamin Abandon Ship!

I know it cant be right  
I know it cant be right  
But I just smile instead  
of repeating what I said  
In my head

When Lenin was little  
dressed up like a vampire on All-Hallows Eve  
All the saints up in heaven  
Were look down at the leaves fallin from the trees  
I know it cant be right

Daddy, Daddy, please save the world from the government  
Daddy, Daddy, please save my sould from my own judgement  
Daddy, Daddy, please send me a heart that isnt made of cement  
cause the moneys all been spent  
the moneys all been spent
