

Arcade Fire, When Lenin Was Little

When Lenin was little
All the birds in the forest were singin Man, this is it!
But now that hes older
All the sailors in the heaver are screamin Abandon Ship!

I know it cant be right
I know it cant be right
But I just smile instead
of repeating what I said
In my head

When Lenin was little
dressed up like a vampire on All-Hallows Eve
All the saints up in heaven
Were look down at the leaves fallin from the trees
I know it cant be right

Daddy, Daddy, please save the world from the government
Daddy, Daddy, please save my sould from my own judgement
Daddy, Daddy, please send me a heart that isnt made of cement
cause the moneys all been spent
the moneys all been spent
