

# Arcadia, Say The Word

Theres a skill, it's nothing we could learn at school  
With a will to survive beneath this rule  
Money thrives as corruptions president  
Waste the life of the yong and innocent  
But after all and the resistant can be disobeyed  
So, when we call, please don't think twice or be afraid  
Hey, mister, say something

Say the word - if your eyes are open  
Say the word - before this love is broken

(say the word)

The lights are down, but you don't sleep so tight  
The words around that we play for keeps tonight  
As we all know even the best made plans go wrong sometimes  
But if it blows well be the ones they victimize  
Hey, mister, say something

(chorus) (chorus) (chorus) (chorus) (chorus)

To put this right  
(ha!)
