

Arch Enemy, The Last Enemy

Fearless on my final quest
Find truth beyond the flesh
Fleeting past my dreams
Of unfulfilled desire
My strength unwavering
My journey just beginning
A desperate race through
The corridors of hell

Chaos emerges
Surrender, I will not

The last enemy is falling
Here I am
To conquer death itself
The last enemy is falling
Here I stand
To conquer death itself

Funeral silence
Beneath the burning cross
My immortal soul
Sleeps with the wolves tonight
Skin and bones that rot
My blood runs dry
See me die to rise
With the gods again

Chaos emerges
Surrender, I will not

The last enemy is falling
Here I am
To conquer death itself
The last enemy is falling
Here I stand
To conquer death itself

-Solos-

Defy
Decay
Arise
Again

-Solo-

Chaos emerges
Surrender, I will not
(Not, not, not)

The last enemy is falling
Here I am
To conquer death itself
The last enemy is falling
Here I stand
To conquer death itself
