

Arch Enemy, Thorns in My Flesh

Liar, liar
Conceal the truth
Silver tongue with a serpent smile
Bigot, betrayer
Master of deceit
With your own interest at heart
When it all came to light
Innocence was lost
How do you sleep at night?
Lost trust, turned to dust
All for one, one for all
Did not apply to you
An intricate web of lies
As the wheels kept on turning
No more thorns in my flesh
No more chains hold me down
I control my destiny
